Rana Abdul Hannan

Software Engineering Student | FAST-NUCES, Lahore

Roll No. 23l-3106 | l233106@lhr.nu.edu.pk | Lahore, Pakistan

PROFILE

Software Engineering student building a strong foundation in programming, web development, and cloud technologies. Interested in creating useful, reliable software and gaining practical experience through hands-on projects.

EDUCATION

BS Software Engineering **2023 - 2027**

National University of Computer and Emerging Sciences (FAST-NUCES), Lahore

TECHNICAL SKILLS

Programming	Python, Java, programming fundamentals, object-oriented concepts
Web	HTML, CSS, responsive design, accessible page structure
Cloud & systems	AWS S3, EC2, Lambda, IAM, Linux fundamentals
Engineering	Git and GitHub, debugging, problem solving, technical documentation

PROJECT

Cloud-hosted CV website

Built a responsive personal CV website and deployed it using AWS. Website files are stored privately in Amazon S3 and served through Amazon EC2 and an AWS Lambda Function URL, with IAM roles used for service access.

Technologies: HTML, CSS, Amazon S3, Amazon EC2, AWS Lambda, IAM
